

## Blue Mountain Quilter's Guild Premie Toque Pattern

### Material:

40 – 50gm ball of Baby yarn  
Needles size 3mm to 4 mm  
Darning type needle to sew seam

Premie toques can range in size so exact gauge is not important.

### Method:

Cast on 76 stitches.

K2, P2 for approximately 5” to 6”

**Wrong side row:** K2 together, P2 to the end of the row  
Work 5 rows keeping rib as established after decreasing.

**Wrong side row:** K1, P2 together to the end of the row.  
Work 2 rows keeping rib as established (K1, P1)

**Right side row:** K3 together, P1 to the end of the row.

**Wrong side row:** K1, P1, to end of the row

Repeat last 2 rows.

Cut yarn leaving a tail long enough to stitch back seam. Thread darning needle and draw tail through remaining stitches, tighten top closing and stitch seam to finish.
