

Dissapearing Pinwheel

Use a vibrant print and a co-ordinating solid.

Need 2 - 10" squares one is your background colour and the other is your main print

Place them right sides together and sew a 1/4" seam all around the outside.

Cut diagonally from corner to corner both ways

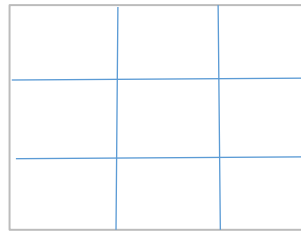

Press to darkest fabric

Sew together in a pinwheel and square off to 12 3/4"

Cut your pinwheel into thirds on both sides (it will cut it into a 9 patch. The measurement is 4 1/4" in from each side. A mat that you can turn without disturbing the block is best.

Turn your corner sections with main colour pointing to the center pinwheel
turn your top, bottom & side pieces so the main colour is closest to the center pinwheel

Sit back and enjoy! Here are the links to the videos.
