

*In keeping with the Canada 150 celebrations, the May Block of the month features a quick windmill block method in red and white fabrics. This block works up so fast you will want to make more than one pair.*

**MATERIALS:** a 2.5 X 19 inch strip of each of a dark red print and a lighter white and red print

**METHOD:**

Sew the strips together along the length and press to the darker side. The strip should be 4.5 inches wide X 19 inches long. Cut the strip into 4.5 inch squares. There will be a bit left over.

Line up all the squares in the same orientation then cut each on the same diagonal, upper left to lower right. Select out triangles that are the same. There will be two groups of 4. Arrange each group into a square. One will have a light pinwheel; the other will have a dark pinwheel. Sew each group together to form the block. Both blocks should measure 5 ½ inches square.
